This is a killer drum beat w/ future bass style. Full of juice." Review by GuyDaGreat With a most punchy and incredibly over the top hit that is sure to keep your audience screaming for more, this is an exciting, bouncy and powerful-sounding beat that will never leave you. You can use this with your DAW, but if you prefer a stand-alone product, this is the perfect sound for that! This software supports the following file formats: VST, VST3, AU, RTAS, AAX, Direct X, Wave, SND, MOD, MODO, REX.
