It is a lighter version of the popular notes manager Notesbrowser Lite. Designed with students and

computer science majors in mind, it has both organizing and tagging features, plus additional viewing features not found in Notesbrowser. To organize notes, it is a lightweight note manager. What's New in this Release: * major speed improvements * new documentation * Windows 64-bit binaries * note folders linked to Google Drive * sound file enhancements Version 8.2.1 Update for Notesbrowser Lite Plus. Fixed a problem with sound b7e8fdf5c8

'Notesbrowser Lite is a good choice for people who need a lightweight notes program. This version contains 10-boxes, which is more than enough for most people. It's available in English, German, Hungarian, Polish, Slovenian, French, Czech, Greek and Serbian languages. This program is similar to Notesbrowser Desktop, but you get several additional features.' Sponsored links Soft32 - Download Notesbrowser Lite Portable Notesbrowser Lite portable is the portable version of Notesbrowser Lite. It allows you to create and organize notes in different categories, as well as to view them and create them from any Windows computer. The program can be stored on a USB flash drive to carry it with you. About This Software Designed as the portable counterpart of Notesbrowser Lite, Notesbrowser Lite Portable is an application that enables you to create and manage notes in different categories. It represents the lighter edition of Notesbrowser and has practical customization options geared toward all user levels. No installation necessary There is no setup involved, so you can save the program files in a custom location on the disk to seamlessly run Notesbrowser. What sets it apart from the installer version is that it can be stored on a USB flash drive to carry it with you when you're on the move, and run the app on any PC without previous setup. It doesn't change Windows registry settings or need DLLs. However, it auto-creates and updates files to remember your settings. Manage note boxes, pages and categories As far as the interface goes, Notesbrowser Lite Portable has a large window with a plain appearance. It takes an interesting approach toward notetaking, as explained in the tutorial section. To be more specific, it lets you write as many notes as you want and sort them in multiple boxes, pages and categories. Any number of these items can be created, and you can edit category and page names. Customize text and manage page layouts When it comes to font formatting options, you can apply effects (italic, bold, underline, strikethrough), set the text alignment, indent and unindent paragraphs, create bullet lists, increase or decrease the text size, as well as personalize the text and background colors. The format of a note box can be copied to apply it to another one. Furthermore, you enter freeform design mode to alter the layout and size of the note boxes in

What's New In Notesbrowser Lite Portable?

Notesbrowser Lite is a notepad replacement. It can organize and edit text documents in multiple text boxes and pages, and keep track of a wide variety of information. Take advantage of its easy to use interface, which includes advanced text formatting options, in addition to a powerful page organization and management system. Features :

- *Fully customizable : you can set the background and foreground colors, font color, format the text, create headings, enable indentation and outdent, keep notes under tabs and auto-sort them. You can also create a large set of notes and categories.
- * Unlimited : there is no limit to how many text boxes, pages, and categories you can create, thus you can organize your notes in a way that fits your needs.
- *Multiple syntax : you can set or save multiple variables with a single line of text. In this way, you can generate text and keep track of information as you move from note to note.
- *Import & Export : you can save the text in a standard text box or save it as a.txt or.asc file. By exporting files, you can send them to other people.
- * Export Notesboxes : you can save the text of each box in a separate file, thus you can export the text in a text box to another software, such as Microsoft Word.
- *Create Single and Multiple Notes : with this feature, you can place multiple notes in different pages or save them in a single page.
- *Keep the same size when you copy : you can change the font size of the text if you prefer. In this way, you can adjust how long a note is or move it to another page.
- *Home : move to the top of the current page. On the desktop version, this feature takes you to the home page.
- *Back : move back to the previous page.
- *Undo : move to the last modified note.
- *Redo : move to the note that was just modified.
- *Revert : restore the note to its original state.
- *Apply Format : apply the style to the text of any note.
- *Text Format : you can change the color of the text, underline, strikethrough and format text.
- *Text Formatter :

insert the character * as a way of inserting automatic paragraphs. *Text2form : convert text to the one character format (A to Z), depending on your preferences. *Text2form_email : convert
